Subject: RE: Offsite MW report

Yes, we will want to keep the same protocol, which continues to demonstrates an united front.

The only time a change in protocol should occur is when EPA states "DEP send out the comments and c: us" or there is an issue that EPA does not agree with the course of action necessary to achieve compliance with NJ regs.

Looks to be a nice weather Friday!

Subject: [EXTERNAL] Offsite MW report

Hi Helen!

Something I forgot to mention on our all after the Chemours quarterly. Steve said DEP will be making a formal comment to the Offsite MW report requesting the soil investigation. Just wanted to confirm you would be sending us the comments and we send our joint letter? I imagine Adolph will want EPA to comment as well.

Thanks,
Eleni
